**Thanks** to Senators Wayne Allard and Ken Salazar and Representatives Marilyn Musgrave, Ed Perlmutter, John Salazar and Mark Udall for their support of congressional legislation that includes incentives for voluntary conservation easement donations.

With the support of these and other members of Congress, these important tax incentives for conservation easements will help protect working farms and ranches across Colorado. Conservation easements have permanently protected over 1.1 million acres in Colorado – and they’ve helped farmers and ranchers preserve their way of life.

Please join us in thanking these Colorado leaders for helping to maintain Colorado’s legacy of natural beauty and agricultural production.
